
Planned changes to the XS JavaScript Runtime

The new XS JavaScript runtime in SPS 11 is planned to be based on Node.js

- Creates synergies with plain Node.js runtime offering
- Enables selective adoption of Node.js features by XS JavaScript applications

```
require.xsjs
1 //New $.require to drop back into node.js |
2 var myModule = $.require('myModule');
3 $.response.status = $.net.http.OK;
4 $.response.contentType = "application/json";
5 $.response.setBody(myModule.helloModule());
```
